

# Campus Food Service: POS Terminals

Campus Food Service streamlines cafeteria operations for establishing individual or family food service accounts, tracking food purchases and designing flexible menu layouts. Campus Food Service improves the efficiency of all food service employees through easy-to-use point-of-sale options while simplifying state reporting.

**Terminal**  
Elevate your business with the highly configurable, enterprise-class terminal. Being as unique as your business, this all-in-one can be outfitted with numerous peripherals.

**Cash Drawer**  
Built for high volume and long shifts, the EVO Pro cash drawer will stand up to the worst abuse, day in and day out. Featuring thick steel, smooth ball-bearing operation, and spring-less bill weights.

Terminal Features		
Versatile Performance	Fan-less Design	Aluminum Alloy Construction
Powered by Intel processors the POS Terminal offers the power to meet the demands of any application.	A fan-less design provides a sleek, clean look and silent operation. No vent openings mean better protection from dust and water reaching an IP54 ingress protection rating.	The EVO TP6 POS Terminal features enterprise-class build quality and is built to last. The ultra-rigid die-cast aluminum alloy frame extends from the body through the stand, providing smooth bump-free touch operation.
