Robert Saffel
Director of Technology, Maintenance, Operations and Facilities
Silver Valley Unified School District
35320 Daggett-Yermo Road
Yermo, CA 92398

Dear Robert,

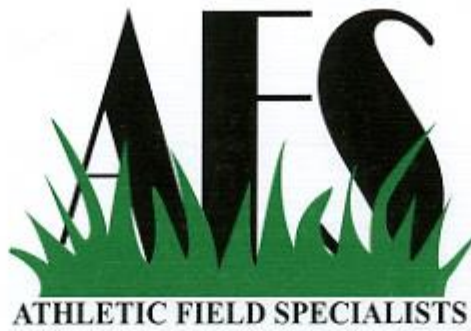

Here is the proposal we discussed for miscellaneous services on your fields at Silver Valley High School. I broke down the proposal into “a-la carte” options so you can determine what works best for your budget and expectations. As we discussed, a comprehensive year round maintenance program will protect the investment you put into your fields for years to come.

Athletic Field Specialists Services include:

- Fertilization. We will perform a soil analysis to determine what deficiencies your soil contains on each respective field. Our fertilization formula will be customized accordingly. The cost for this service is \$950.00 for the softball field, \$1,200.00 for the baseball field and \$1,200.00 for the football field. This is per application.
- Herbicide applications. This is for broadleaf herbicides and pre-emergent herbicides. The cost for this service is \$800.00 for the softball field, \$1,200.00 for the baseball field and \$1,200.00 for the football field. This is per application.
- Dethatching and / verticutting services. To keep costs down, all debris will be stockpiled on site. This is ideal before an over seeding procedure. The cost for this service is \$2,000.00 for the softball field, \$3,500.00 for the baseball field and \$3,500.00 for the football field. This is per procedure.
- Over seeding services. We will use perennial ryegrass seed and we will top-dress the fields with a seed topper and apply starter fertilizer to expedite the seed establishment period. We would schedule this procedure after the dethatching procedure. The cost for this service is \$4,500.00 for the softball field, \$7,500.00 for the baseball field and \$7,500.00 for the football field. This is per procedure.

SPORTS FIELD MANAGEMENT, CONSTRUCTION & RENOVATION

- Perform laser grading and infield tune-ups. (I highly recommend this service for new fields. The field will be reset back to its original specs and layout). This service requires my six man crew and it includes mound repairs, layout and laser grading. The cost for this procedure is \$6,500.00 for the softball field and \$7,000.00 for the baseball field.

All services listed above include move-in costs, all material, equipment and labor paid at maintenance prevailing wage rates. Exclusions include irrigation modifications, bonds and permits.

Thanks again Robert for your time and consideration. Please call me anytime if you have any questions. My crew and I look forward to hearing back from you and working with Silver Valley USD again!

Sincerely,
Allen Aragon
